

EuroDrying'2019

7th European Drying Conference

www.eurodrying2019.com

Politecnico di Torino, Italy – July 10-12, 2019

The Politecnico di Torino is proud to host the 7th edition of the European Drying Conference. The Conference deals with cutting-edge research in drying field, enabling researchers and technicians to exchange ideas and innovation on drying methods, modelling and applications.

Call for papers

Topics

- Fundamentals of drying
- Modelling and simulation
- Physical properties
- Chemical, ceramic, textile and polymer materials
- Food and agricultural materials
- Pharmaceutical and biomaterials
- Measurements and process control
- Industrial processes and equipment
- Innovative technologies
- Energy and environmental implications
- Cultural heritage and art

Chair

Antonello Barresi
Politecnico di Torino

Organising Committee

Davide Fissore, POLITO
Sabrina Grassini, POLITO
Franco Pattarino, UPO
Roberto Pisano, POLITO

Key dates

Abstract submission

January 31, 2019 (new deadline)

Notification of acceptance

February 15, 2019

Full text submission

April 30, 2019

Special industrial session

To enhance industry engagement and increase exchange between industry and academic researchers, Eurodrying'2019 is holding a Special Industry Session. The session will focus on all aspects of drying technologies, methods, and applications achieved by our industry colleagues, giving them the opportunity to present to their new technologies and applications, or even new challenges.

Side event by POLITO: EFCE Student contest on Drying "Drying: ideas and challenges for a sustainable world"

This international competition is organised for the first time by Politecnico di Torino, as a side-event of the Conference. It addresses to advanced undergraduates (Master programs), Master and Ph.D. students and aims to stimulate innovative ideas for applications in the area of drying for sustainable food, energy and environmental processes. Students are invited to submit their proposal (maximum three pages) with a technical description of the idea, significance of the application, details of the drying methodology and final goals. The best ideas will be presented in a special event preceding the conference on July 10, 2019, and the winners will have the opportunity to give an oral presentation as guests in a special session of the conference, where the award ceremony will take place.

Details for submission will be published soon on the website.

Deadline for proposal submission: April 30, 2019

Registration fees (V.A.T. included)

Fees	Before April 30, 2019	After April 30, 2019
EFCE Delegate	320.00 €	370.00 €
Full registration fee	370.00 €	420.00 €
Student fee	240.00 €	270.00 €

Awards

The best presentation and the best poster will be awarded continuing the tradition from previous EuroDrying conferences. A new award is sponsored for the best paper on *Drying in Cultural Heritage and Art*.

The **1st EFCE excellence award** for the best PhD research on Drying and freeze-drying by a young researcher will be delivered thanks to industrial sponsor (Crioforma). **Apply on EFCE website** <https://efce.info/ExcellenceAwardDrying.html>

Conference venue

The conference will be held in the main building of Politecnico di Torino.

Social events

Welcome Cocktail - Wednesday 10 July
at Valentino Castle, Torino

Social dinner – Thursday 11 July
